INTERMODAL CONNECTIVITY

oceanogate

railhub milano

EUROPEAN GATE RAIL

Service reliability:

private operator specializing in rail cargo transport with 12 locomotors and 330 rail wagons

Time to market:

increased flexibility and speed via new intermodal connections

Integrated processes:

streamlined Terminal and MTO processes for greater control and fast transfers

Direct management:

shunting operations in Melzo and La Spezia

Innovation:

first rail customs corridor between La Spezia and Melzo with traction provided by Oceanogate

Location:

strategic positioning at the heart of the main North Italian markets (43% of Italian GDP)

Change Your Point of view:

high frequency international connections towards Northern and Central Europe

Rail operations:

24/7 - 12 km of internal rail tracks (including train shunting and parking area)

Customs:

available within RHM Terminal - Milano East Customs Agency

Value Added Services:

container depot, bonded warehouses, last mile delivery via truck, maintenance & repair workshops, certified weighing for VGM documentation

Rail Fast Corridor:

Improving the efficiency of import flows and reducing end-to-end transit times skipping port customs operations

Dedicated sales, customer service & operation teams:

working for your cargo since 1959

Door-to-Door service

truck transport for last mile delivery

Rail operations:

guaranteed - even on weekends when trucks can't circulate

Sustainable Solutions:

provides customers with environmentally sustainable transport solutions
